

# GERMANS INVITE PREMATURE OFFENSIVE

Efforts Are Being Made To Trick Allies, Extensive Raids Are Stopped

HOPE TO CREATE A FAVORABLE IMPRESSION

Allies in Position for First Time Since War Began to Strike Together

By J. W. T. Mason  
New York, March 20.—Efforts by the Germans to tempt the Western Allies into starting a premature major offensive this spring have begun. The Germans themselves have ceased to engage in extensive raids. They are abandoning occasional trench positions and are not making a strenuous defense against French and British and American raiders. By these tactics the German general staff may hope to create the impression that the German morale is giving way and that an early spring drive by the Allies would meet with large success.

In reality, Von Hindenburg realizes that impatience to deliver this year's blow against the German west front might, indeed, result in no more than a moderate victory for the Allies not worth the cost. For the first time since the war began the Western Allies are in a position through the supreme war council at Versailles, to strike together against the Germans. This co-ordination if properly used ought to give the Allies an enormous advantage. But, it would be thrown away if an impatient demand arises to strike at the Germans before every thing is ready.

There is no advantage in trying to outpace the Germans. The initiative at the west front is now passing into the hands of America, France and Great Britain. It is they who are in the real position to force events whenever they desire. It is because Von Hindenburg knows this that he is trying to tempt the allies into moving before they have made full preparations.

It is impossible to believe that the generals in the field can be fooled by any such situation. But, public opinion at home must be taken into consideration in determining problems of major strategy. The time has come therefore, with the beginning of spring when home opinion should guard itself against falling in the snare of impatience. Public opinion, in democracies, some times has forced army commanders into terrible blunders. The home morale is now of vital importance. It should not show uneasiness at delays in attack which may be necessary to make victory certain at the end.

# POSSIBILITY OF INTERVENTION IS CONSIDERED

Petrograd, March 19.—(Night)—Foreign Minister Tchicherin declared today that the soviet commissaries have considered the possibility that the United States will oppose Japanese ventures in the Far East. He said he believed negotiations toward that end, between the United States and Russia were possible.

War Minister Trotsky directly opposed Tchicherin's statement, declaring Russia could not obligate itself to "capitalist America."

Tchicherin emphasized that the soviets would not seek a formal alliance with the United States, but said they hoped the United States would desire to live in friendship and co-operation with Russia, as a means of protecting its own interests against Japanese encroachments.

"It is impossible even to discuss a Russo-American alliance," Trotsky said, when informed of Tchicherin's declaration.

"Socialist Russia can never place itself under obligations to capitalist America. It is possible, however, that America will seek closer relations with Russia, owing to the Japanese situation."

# STILL CHANCE TO AROUSE RUSS AGAINST TEUTONS

Washington, March 20.—The United States government holds firm to the belief that there is yet hope of arousing Russia against the Teutons.

"It is a small margin," high officials say, "but worth hanging onto."

And it may be assured that President Wilson will continue his efforts to drive home to the Russian, America's friendship to the last.

Confidence in official quarters here has been aroused slightly by the new tone adopted toward America by the Russian press since the president's message to the Soviet congress.

It appeared likely today that President Wilson would delay his expected statement on the war situation until confused events, now in the process of development, had a chance to assume definite form.

For the moment Japan's proposed expedition into Siberia is held up by conflict of opinion as to its necessity in her own country and cabinet.

# TWO RESCUED FROM CANOE

Earl Pew and E. Scott had a close call about noon today when they attempted to take a canoe down the river and were swept down stream at a terrific rate. Workmen on the Michigan avenue bridge, seeing them coming and realizing their plight dropped ropes over the side of the bridge and as they came along Pew grasped one and was able to hold on while Scott, who was nearly exhausted, was dragged to land. Pew was then hauled out.

He was a junior in the university of Idaho when he enlisted.

# REQUISITIONING OF DUTCH SHIPS IS STILL DELAYED

Washington, March 20.—Governmental requisitioning of Dutch shipping was still delayed early today. Seizure, expected last night or early this morning, waits upon President Wilson's formal proclamation which in turn depends upon a message as to Holland's position.

The ships will be obtained anyway and it now appears that the government has delayed a requisition scheduled for Monday to give Holland ample time to agree fully if she chose.

# TWENTY CLUB TO DEDICATE CLIFFORD ROOM

# BAKER VISITS TRENCHES AND U. S. HOSPITALS

Experiences Shell Fire From Listening Post in Front Line Trenches

BIG SHELL DROPS UNCOMFORTABLY NEAR

Commends Young Roosevelt And Other Officers in the Hospitals

By Fred S. Ferguson  
With the American Army in France, March 18.—Secretary Baker was in the front line trenches under shell fire early today, scanning No Man's Land from a listening post.

"Now I am at the frontier of freedom," he exclaimed.

Returning from the trenches a 105 caliber German shell burst within 40 yards of the secretary's automobile. Baker saw many men from Ohio whom he knew, both officers and rankers.

The secretary called upon Capt. Archie Roosevelt at the hospital, stood at the young officer's cot and chatted for some time, praising his gallantry. He also talked with other wounded officers.

The visit of the hospital followed an inspection of the Toul front. Baker and his party motored through shatter villages to division headquarters. A battalion drawn up by the roadside was formally reviewed.

One of the villages traversed en route to the trenches housed American regimental officers. It was the most utterly demolished of any visited. The officers lived in stone skeletons that were once houses. Shells fall on the village with great frequency. Every one of its inhabitants is constantly tin-hatted and gas-masked.

The road to the village winds thru the open country, exposed to enemy fire.

While Baker was in the trenches, allied airplanes wheeled overhead, despite heavy fire from boche anti-aircraft guns.

# FARMERS WILL PROFIT BY NEW RESERVE PLAN

A PROCLAMATION

I deem it my duty to call the attention of the people of this State to the imperative need of a large agricultural crop this year. We need food, food for our soldiers and for ourselves; but thousands of men have left the farms to enter the army and the munitions factories, and there will be a serious shortage of farm labor, so necessary to the production of an adequate supply of food. The United States Boys' Working Reserve has been organized to help meet this need. Instituted by the Federal Government the Reserve is backed by all our war leaders, and it ought to command the support of every citizen.

Farmers should awaken to the fact that relief is available through this Reserve, and should call upon the local enrolling officer, the County Director, or Mr. Charles A. Parcels, Michigan Federal Director, Detroit, Mich., for such help as they will need. Parents should encourage their boys, between the ages of sixteen and twenty-one, to enroll in the Reserve. They will receive fair wages, and, by arrangement with the school authorities, their scholastic standing will be preserved. There will be hard work for them to do, but they will not be overlooked. They will gain in health and strength, and the experience will be valuable to them through life.

Under the abnormal conditions which prevail, town and country must co-operate as never before; and the way has been found. Boys in the cities and towns should realize that by enrolling for work on the farms they are undertaking a real patriotic service. Boys on the farms should remain there, and enroll in the Reserve. The United States Government will recognize these boys as soldiers of the soil, and they will be entitled to wear the honored emblem of this branch of the service.

Therefore, I Albert E. Sleeper, Governor of the State of Michigan, do hereby designate and set aside the week from March 18th to March 23rd, inclusive, as

Official Enrolling Week of the United States Boys' Working Reserve in this State; and I call upon all qualified boys to register, through the local recruiting officers, for this high and honorable service.

By the Governor:  
ALBERT E. SLEEPER, Governor.  
COLEMAN C. VAUGHAN, Secretary of State.

Some farmers in Michigan evidently are beginning to worry about "help" in the coming spring and summer. They have already begun to make inquiries about where it is coming from—and the more they inquire the more they are learning how unfavorable is the prospect. It is expected by men who are in close touch with agricultural and war conditions in this state that the exact situation will not be apparent to the farmers until the time comes for the use of men on farms, when there is bound to be great disappointment and, perhaps, a consequent reduction of planted acreage and of crop.

The work of committees of business and professional men in many counties in promotion of the United States Boys' Working Reserve is bringing many letters from farmers to the agricultural papers and to the office of the State Director of the Reserve, Charles A. Parcels. Some of these, naturally, ask for men; others, from men who understand the situation better, have said, "If you can't send me an experienced man, send me a boy—as husky a one as you can find."

Here is a sample appeal; it is from E. R. Fitch, of Watervliet, addressed to the editor of Michigan Business Farmer:

"I will need farm help for the season of 1918. I would much prefer an experienced man if such could be found but as that is most impossible, I will have to look where prospects seem best. I have 80 acres, keep at present 8 cows, a few hogs, will have 15 or 20 acres of corn, 10 or 15 of oats, besides hay, wheat and pasture. I do not want a tobacco smoker nor chaffer but one of clean morals and trustworthy. However, I don't expect perfection, but as he will be one in my family you will understand how I feel. Hoping for a favorable report in finding a good boy."

The editor of the farm paper sent the letter to the Director of the Boys' Working Reserve and Mr. Parcels was able immediately to place this farmer in touch with the County Director of the Reserve in Berrien county, which means that Mr. Fitch will have the personal services of a government man, well acquainted with the labor situation and possibilities, in solving his problem.

"This is one of the advantages of the Reserve plan," said Mr. Parcels today. "There is no effort to center everything in the state office; the

# LENROOT AND THOMPSON IN CLOSE RACE

Milwaukee, Wis., March 20.—Irvine L. Lenroot and Thomas Thompson were running neck and neck in returns early today for the Republican senatorial nomination, and the result apparently was as much in doubt as when the polls opened for the primaries yesterday.

Joseph Davies has been nominated for the senate by the Democrats over Charles McCarthy by a 3 to 1 majority. Victor Berger was named by the Socialists, polling a comparatively heavy vote.

Fairly complete returns from 600 precincts out of approximately 2400 in the state showed Lenroot leading Thompson this morning by a vote of 29,106 to 27,021. These precincts were scattered through every section of Wisconsin but included only 30 Milwaukee precincts out of 183.

By Fred S. Ferguson  
With the American Army in France March 18.—The first men to receive the new American war decoration for extraordinary heroism were Lieut. U. N. Greene of the field artillery and Sergeants William Norton and Pat Walsh.

All received the distinguished service cross.

Greene was wounded by a grenade during the recently repulsed German raid on the Toul front. He was in a dugout and refused to surrender. After being wounded, he wounded a boche with a pistol shot and drove the others out of the trench.

Norton's and Walsh's feats have been previously narrated. No crosses were available for presentation at the time they were won.

# GOOD OUTLOOK FOR OVERMAN MEASURE

Bill Carrying New Powers For President Promises To Find Way Through

By L. C. Martin  
Washington, March 20.—As President Wilson gathered about him today a group of his foremost war workers and advisers—a sort of unofficial war cabinet—the senate judiciary committee moved toward final action on the Overman empowering bill.

This measure, giving the president broad authority to co-ordinate scattered or ineffective war branches, may be ordered reported today unless new opposition develops.

Senator Smith, Georgia, one of the chief opponents, was preparing a bill to limit re-organization power to the war and navy departments, the shipping board and the bureau of mines (dealing with explosives).

Improved war work, resulting from war department re-organization has dissipated much of the original opposition to the Overman measure. On the other hand opposition to it was engendered in some quarters today by the creation of another of a chain of "advisory boards"—the new price fixing organization.

Little enthusiasm was manifest as to the new unofficial cabinet called together today.

The general view was that the chief value of the new plan will be in the interchange of ideas.

Those backing the Chamberlain war cabinet and director of munitions bills declared the trend of events emphasizes the need for a central directing authority, with power to decide big questions and to back up these so that hitherto competition between departments shall be eliminated.

While the house today continued work on the war finance corporation bill, the senate entered its fourth day of debate on the Gore proposal to fix \$2.50 as the minimum wheat price. Debate has disclosed great hostility to fixing prices on anything.

Further testimony was to be taken this afternoon in the inquiry into the activities of the German-American alliance and the Hog Island ship yard was under senate commerce committee scrutiny.

Proposals for a ten day "Liberty Loan" recess was revived today.

**KEEP LOOKING YOUNG**  
 It's Easy—If You Know Dr. Edwards' Olive Tablets.

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

rectors, men who are competent to  
handle the local problems as they  
arise. In this work these directors  
have the advice and the active aid  
of many responsible citizens in the  
county. Forty-six counties in Michi-  
gan now have such county organiza-  
tions, and it is fortunate indeed that  
the best men in the various localities  
have enlisted in this work.

"These county committees and di-  
rectors are informed fully, at the  
time of their appointment, that their  
work involves not only the placing of  
the older boys on farms where they  
are needed but the supervision of  
the boys while there. Plans are made  
for regular visits, by responsible men,  
to farms where boys are employed, to  
guard against any work or social con-  
ditions that might be detrimental to  
the boy. This means that the boys  
will be protected. With such a guar-  
antee, and with the prospect of the  
usual wages and the variously bene-  
ficial effects of clean labor in the out-  
of-doors, and the patriotic purpose  
back of it all, it is believed that the  
enrollments of boys for such national  
service will increase rapidly.

"This enrollment work is going on  
throughout the state. In Grand Rap-  
ids, for instance, the local committee

is planning definitely to enroll at  
least 500 older boys; in Gratiot coun-  
ty, 700 boys; in Bay City, 300 boys.  
Each boy on a farm means food for  
additional scores of people. If we  
could have 5,000 boys in farm work  
this year it would mean several mil-  
lions dollars more of revenue from  
agriculture in this state."

## GREATEST OF AIR WARS ON EAST FRONT

With the British Armies in France,  
March 20.—The air war on the west  
front is record breaking.

One hundred and sixty-seven enemy  
airplanes have been downed so far  
this month in daylight flying, includ-  
ing 23 on St. Patrick's Day. Of these  
102 were reduced to kindling wood,  
while 65 were forced earthward be-  
yond control.

Night flying is unprecedented.  
There is much mutual bombing at  
night. The British bombers seem  
positively tireless.

The night scenes at the airbases  
are most amazing. Huge airplanes  
silently roll from the sheds into the  
moonlight. Big bombs are loaded on  
to them. Hooded creatures climb up.  
They they whirl away like giant  
moths toward their objectives behind  
the German lines.

After an hour or so they return,  
guided by the flare of landing lights.

The aviators assemble in their read-  
ing rooms, gossiping and comparing  
notes, then absorb a "night cap" and  
climb into their bunks.

## Comfortable Glasses

Many persons do not buy glasses  
when they need them, because they  
fear the annoyance of wearing  
them.

Glasses, skillfully fitted, are as  
comfortable as carpet slippers.  
Instead of an annoyance, they are  
a source of pleasure and ease.

No matter how difficult to fit  
you are, there is a frame or mount-  
ing here which, adjusted as we  
know how to do it, will give you  
the results you want.

The National Biscuit Products are manufactured in Detroit, not  
several hundred miles away. That means fresh goods. Our sales  
are bigger, perhaps than any store in this vicinity. That means that  
the goods are not staying on our shelves. They're moving—another  
assurance of fresh goods.

## CLOTHCRAFT CLOTHES

CLOTHCRAFT, CLOTHES

It's Time Right Now to be  
Thinking of Easter

By general consent, Easter is the day for starting off the new  
season with "the best foot foremost." New clothes do help the feel-  
ing of confidence and optimism which is characteristic of the Easter  
season.

The usual number of early buyers have already been in, making  
their selections for Easter. It's a pretty sensible plan to get in be-  
fore the rush, for even the biggest stock of clothing will show signs  
of picking over if you delay too long.

We shall be happy to help you choose what you want from our  
carefully bought lines. Suits \$20 to \$30. Ties, 50 cents to \$2. Hats,  
\$3 to \$3.50, \$4.00, \$5.00.
